# Mentor & Mentee Support Resources

## Mentorship Tools & Toolkits

### Mentorship Agreement Library

[The CIMER Library of Mentorship Agreements and Compacts](#)  is a useful resource for setting and aligning expectations between mentor and mentee. This library compiles a list of examples and worksheets for a variety of career stages and disciplines.

### IDP Library

CIMER has compiled several example [Individual Development Plans \(IDPs\)](#)  which are useful tools for articulating career goals and identifying the professional development and mentoring mentees need to achieve those goals. This library includes a list of examples and worksheets for a variety of career stages and disciplines.

GOT IT!

Education Network (IGEN) to assist those in taking first steps into building sustainable cultures of mentorship at their institutions.

## NASEM Online Toolkit and Report

The Science of Effective Mentorship in STEMM is a consensus report from the National Academies of Sciences, Engineering and Medicine which studies mentoring programs and practices at the undergraduate and graduate levels. It also includes an Online Toolkit.

- Consensus report: Download and read the report on the [NASEM site](#) 
- Online Toolkit link including links to Individual Development Plans (IDPs) and Mentorship Maps: Explore the tools on the NASEM [Resource site](#) 

## Mentoring Toolkit from University of Southern California

Colleagues at the University of Southern California have developed the [Mentoring Toolkit from University of Southern California](#)  to engage mentors in deeper thinking about how mentoring relationships in graduate education can account for differences in access and opportunity. The exercises are designed to help establish shared understanding of mentoring expectations and facilitate conversations about differences in access and opportunity in mentoring relationships.

## Writing and Communication Support

The University of California-San Francisco offers an evidence-based synchronous online mentor training program. Materials from [the UCSF Mentor Training Program Archive](#)  are available for broader use.

## Clinical Educators Module

CIMER collaborated with colleagues across the country to create a module titled “Fostering Success & Promoting Professional Development of Clinician Educator Mentees: A Workshop for Mentors.” You can find an article about its effectiveness and download all module materials, including the facilitator guide, slides, participant materials and an evaluation form on the [MedEd Portal](#). 

## I-TECH (Clinical Mentoring)

[The International Training and Education Center on HIV \(I-TECH\)](#)  has an extensive clinical mentoring curriculum. The three-day generic curriculum on basic mentoring skills includes sessions on interpersonal communication skills, clinical teaching skills and program orientation. Many of the materials, particularly those on communication, building relationships, and theories of learning, may easily be adapted for use with research mentors.

## Asynchronous & Hybrid Training Options

In the domain of mentor and mentee training, CIMER’s expertise is in the delivery of synchronous in-person and synchronous online workshops. Other colleagues across the country have developed wonderful asynchronous mentor and mentee training tools and have made them publicly accessible, through their own websites and through the course catalog of the National Research

# Mentoring Graduate Students, Post Docs & Early Career Faculty

## Optimizing the Practice of Mentoring (OPM):

The [University of Minnesota's Optimizing the Practice of Mentoring](#)  offers asynchronous online self-paced research mentor training for mentors of graduate students, fellows and early-career faculty. Content is organized into five modules that cover mentoring models, mentor roles and responsibilities, structure and dynamics of the mentoring relationship, and strategies for facilitating, and addressing challenges to, the mentoring process.

## NRMN\*

\*as of fall 2025 the NRMN resources are no longer available at its' former site. CIMER has been informed a new host institution hopes to house the NRMN resources in the future. Timeline to be determined.

Mentoring graduate students self-directed course by \*NRMN (no longer available)

## *Fair Play*

Fair Play is interactive, educational game that represents a true to life simulation of the complex social world for a graduate student in academia. Players take the perspective of Jamal Davis, a Black graduate student on his way to becoming a renowned professor. In the game, players experience racial bias during interactions with other characters, as well as in the virtual environment. As a Black student navigating the academic world, bias can steer

trainees through the crucial steps of identifying mentors and building and maintaining strong mentoring relationships.

## **Dismantling Ableism in Mentorship**

### **Working Together: Deaf & Hearing People**

[The Working Together: Deaf & Hearing People from the National Technical Institute for the Deaf](#)  is an approximately two-hour course designed to help employers develop the sensitivity and skills to communicate effectively with deaf and hard-of-hearing employees, enable deaf and hearing colleagues to work together more productively, and assist in fostering a workplace culture of diversity and inclusion. The five self-paced modules in the course cover topics on Myths and Definitions, Hearing Loss, Deaf Culture, Communication, and Accommodation and Inclusion in the Workplace. This group is also developing mentor training modules.

### **National Disability Mentoring Coalition – Disability Mentoring Certification**

[The NSMC Disability Mentoring Certification](#)  is a four-month program for individuals seeking to develop competence in running mentoring programs that are inclusive for individuals with disabilities. Participants will attend several webinars, take a curriculum at their own place, and develop an inclusive mentoring action plan.

## **Mentoring Across Differences**

Michigan State University, partnering with Howard University, offers the [Mentoring Across Differences: Mentor Training Curriculum](#),  which is designed to prepare mentors to recognize and address racial and/or cultural-based differences in their mentoring relationships and effectively support the experiences of underrepresented trainees. The curriculum integrates insights
